An exposé of Alcoholics Anonymous, 12-step programs, and the rehab industry—and how a failed addiction-treatment model came to dominate America. AA has become so infused in our society that it is practically synonymous with addiction recovery. Yet the evidence shows that AA has only a 5–10 percent success rate—hardly better than no treatment at all. Despite this, doctors, employers, and judges regularly refer addicted people to treatment programs and rehab facilities based on the 12-step model. In *The Sober Truth*, acclaimed addiction specialist Dr. Lance Dodes exposes the deeply flawed science that the 12-step industry has used to support its programs. Dr. Dodes analyzes dozens of studies to reveal a startling pattern of errors, misjudgments, and biases. He also pores over the research to highlight the best peer-reviewed studies available and discovers that they reach a grim consensus on the program's overall success. But *The Sober Truth* is more than a book about addiction. It is also a book about science and how and why AA and rehab became so popular, despite the discouraging data. Dr. Dodes explores the entire story of AA's rise, from its origins in early fundamentalist religious and mystical beliefs to its present-day place of privilege in politics and media. *The Sober Truth* includes true stories from Dr. Dodes's thirty-five years of clinical practice, as well as firsthand accounts submitted by addicts through an open invitation on the *Psychology Today* website. These stories vividly reveal the experience of walking the steps and attending some of the nation's most

famous rehabilitation centers. The Sober Truth builds a powerful response to the monopoly of the 12-step program and explodes the myth that these programs offer an acceptable or universal solution to the deeply personal problem of addiction. This book offers new and actionable information for addicts, their families, and medical providers, and lays out better ways to understand addiction for those seeking a more effective and compassionate approach to this treatable problem.

When danger to the sheep leaves no alternative, a young Navajo boy breaks his promise to his father and is rewarded for his courage and good judgment.

The "blue laser" is an exciting new device used in physics. The potential is now being recognized for its development into a commercial lighting system using about a tenth of the power and with a thousand times the operating lifetime of a comparable conventional system. This comprehensive work introduces the subject at a level suitable for graduate students. It covers the basics physics of light emitting diodes (LEDs) and laser diodes (LDs) based on gallium nitride and related nitride semiconductors, and gives an outline of their structural, transport and optical properties, and the relevant device physics. It begins with the fundamentals, and covers both theory and experiment, as well as an examination of actual and potential device applications. Shuji Nakamura and Nichia Chemicals Industries made the initial breakthroughs in

the field, and these have revealed that LEDs and LDs are a sophisticated physical phenomenon and a commercial reality.

75 great American masters are introduced through open-ended quality art activities allowing kids to explore great art styles from colonial times to the present. Each child-tested art activity presents a biography, full color artwork, and techniques covering painting, drawing, sculpture, photography, architecture, and more. Special art options for very young children are included. Many great artists will be familiar names, like Cassatt, Warhol, and O'Keeffe. Other names will be new to some, like Asawa, Smithson, and Magee. Each featured artist has a style that is interesting to children, with a life history that will entertain and inspire them. Sample of some of the artists and companion activities: Andy Warhol - Package Design Bev Doolittle - Camouflage Draw Dale Chihuly - Pool Spheres Maya Lin - Memorial Plaque Jasper Johns - Encaustic Flag Joseph Raffael - Shiny Diptych Roy Lichtenstein - Comic Sounds Thomas Jefferson - Clay Keystone Edward Hopper - Wash Over Grant Wood - Gothic Paste-Up Wolf Kahn - Layered Pastel Jackson Pollock - Great Action Art Mary Cassatt - Back-Draw Monoprint Louis Comfort Tiffany - Bright Windows Hans Hofmann - Energetic Color Blocks Rube Goldberg - Contraption Georgia O'Keeffe - Paint with Distance 2009 Moonbeam Children's Bronze Award 2009 Benjamin Franklin Award
