Presents a guide to the "inking" process, introducing the techniques and textures that make comics so visually appealing.

What does a comic-book inker do? Is an inker responsible for the coloring? Does an inker just trace over the lines? How much of the line work is done by computer? Learn the answers, and the stylized techniques, from the professionals! This book, full of tips from the comics industry's greatest living inkers, is for aspiring inkers, untrained professional inkers, pencillers who want to become more inker-friendly, and the majority of editors who work in comics today.

A comprehensive guide to creating and developing comic book and graphic novel art, from the Savannah College of Art and Design (SCAD), one of the world's leaders in sequential arts instruction. John Lowe, Dean of the School of Communication Arts at SCAD, presents an in-depth primer on the tools and techniques used by top sequential artists to create comic books, graphic novels, and other sequential art forms. Based on SCAD's world-famous sequential arts curriculum with examples of professional comic book art from their faculty and alumni, the book uses detailed instruction and step-by-step examples to teach key artistic methods like sketching, thumbnailing, reference gathering, and using production/digital design methods. This book covers all the materials and methods aspiring artists need to master to make it as sequential artists.

This trade paperback reprints the sold-out issues #10-12 of the bi-monthly magazine for Kirby fans and includes a new special section detailing a fan's visit to the Kirbys' remarkable home. Good penning and inking comes with knowledge and practice, and this book enlists famous pros to share their wisdom. Includes step-by-step instructions by these industry giants to help budding artists master their craft.

For the aspiring artist who wants to become an expert comic book inker, The DC Comics Guide to Inking Comics is the definitive, one-stop resource! America's leading comic book publisher brings its superstar creators and classic characters to the third in an authoritative series of books on how to create comics. Legendary comic book inker Klaus Janson uses DC's world-famous characters—including Batman, Superman, and Wonder Woman—to demonstrate an array of inking techniques, covering such topics as using textures, varying line weights, creating the illusion of three-dimensionality, and working with light and dark. Janson's lively, step-by-step instructions are informative, exciting—and clear enough for even beginners to follow. In addition, every technique shown in this guide conforms to actual industry standards. The perfect how-to on everything from basic inking materials to storytelling techniques, this one-stop sourcebook is packed with a wealth of tested techniques, practical advice, and professional secrets for the aspiring comic artist.

Everything you ever wanted to know about dragons, but were afraid to find out Fantasy artists will breathe easier to discover a less perilous alternative to drawing dragons from life. Dracopedia grants you safe, easy access to the world's most prominent dragon species, from tiny, innocuous feydragons to the ferocious wyvern. For years, artist William O'Connor has traveled the globe, studying dragons in their natural environments. His findings, field notes and sketches have been compiled for the first time into this single, beautifully illustrated

compendium—a natural and cultural history of the beasts as well as a step-by-step drawing workshop. Details of the anatomy, behavior, habitats and legends of 13 major dragon families Heavily illustrated with field sketches, anatomical studies and gesture drawings Shows the start-to-finish creation of 13 striking paintings, illustrating key concepts that apply to every medium Dragons have terrorized and delighted humans for centuries—continue the tradition with Dracopedia. It's packed with inspiration for putting "fierce" into your fantasy art, as well as the facts to keep your dragons true to life.

Supercharge your drawing with the power of photo reference! An essential foundational tool for any aspiring artist! To draw a character consistently and convincingly over an entire story or series, you need a serious reference library--all professionals use them. Inside, find more than 500 awesome-quality color photos depicting popular poses, props, outfits and activities for extraordinary and everyday comic characters--people pointing at heroes flying in the sky, lifting large objects, cowering in fear from impending doom and even doing battle in hand-to-hand combat. Lit with a superior two-source technique, these photos expose dramatic, muscle-revealing shadows and figure contours to add depth, realism and weight to every illustration. Use reference photos to:

- Trick viewers into seeing 3-D places, people and things by leveraging art techniques like foreshortening, shading and perspective.
- Breathe realism and action into drawings by referencing muscular models ranging in age, gender and ethnicity, brandishing guns, swords and knives while wearing everything from capes and street clothes to spandex shorts.
- Explore the nuances of common facial expressions like pain, anger, fear, frustration, joy, shock, confusion and smug satisfaction.
- Create dynamic poses including standing, sitting, flying, lifting, punching, kicking, smoking, screaming, drinking, laughing, sword-fighting, ducking...and more!

A twelve-year-old demigod is sent to help the people of Arcopolis, a city infested with monsters.
