Environmental Science  
Untold Stories of  
Chemical Pollution  
Chemical Pollution In  
Environment~~

Chemical pollution is defined as the presence or increase in our environment of chemical pollutants that are not naturally present there or are found in amounts higher than

# Access Free Chemical

their natural background values. Most of the chemicals that pollute the environment are man-made, resulted from the various activities in which toxic chemicals are used for various purposes.

# Access Free Chemical

Chemical pollution  
definition. The  
definition of chemical  
pollution: When  
chemicals are released  
into our environment  
and disrupts the balance  
of our ecosystems,  
threatening our health,  
polluting the air we  
breathe and  
contaminating our food.  
There are many sources  
of chemical pollution.

## ~~Chemical Pollution~~ ~~Causes | Environmental~~ ~~Pollution Centers~~

Chemical pollution is when fluids, often toxic, get released into the water. Chemicals can find their way into the sea in many ways and come from all sorts of places. Lets take a look

# Access Free Chemical

~~Pollution In~~  
-Industry - Sometimes  
factories and industry  
will allow waste  
products to flow into  
streams and rivers  
which eventually get to  
the sea.

~~Chemical Pollution -  
Young People's Trust  
For the Environment~~

While chemical  
pollution may affect any  
medium (water, air, and

# Access Free Chemical

soil), chemical pollution could pose serious long-term risks when present in water bodies, such as oceans. This is because large water bodies such as oceans and seas may serve as sinks to chemical pollution.

Various chemical pollutants may get deposited into aquatic sediments and can concentrate and

# Access Free Chemical

accumulate in sediments  
over a longer time.

## ~~Chemical Pollution Facts | Environmental Pollution Centers~~

Any gaseous chemical  
substance can pollute  
our air if it reaches a  
high concentration.

There are 10 substances  
that cause the most  
concern: Carbon  
Monoxide, Sulfur
