The immune system is the primary defense mechanism of our body to fight cancer. Cancer cells and pathogens can spread quickly in the body, when the immune system is weak. Only an intact immune system manages to eliminate the hostile cells. Strengthening the immune system therefore is extremely important for the prevention of cancer. In this homeopathic and naturopathic adviser, I will give you recommendations how to prevent cancer with Homeopathy, Schuessler salts (also named cell salts, tissue salts) and herbal tinctures. I will present you the most proven homeopathic remedies and Schuessler salts, including the appropriate potency and dosage. I wish you much success, joy of life and especially your health.

This book details integrative oncology, a nascent field building a rigorous evidenced-based clinical medicine, research, and educational foundation. It examines five prestigious, comprehensive cancer centers based in the US, covering how these centers started their programs, what they are currently doing, and recommendations for starting integrative medicine clinics. The book also discusses the potential harm of alternative and complementary medicine, legal issues, and how to communicate with patients.
