This is a classic story based upon the idea that two strangers meet on a train and commit murder for each other, apparently safe in the knowledge that they are completely unconnected to each other. However, one protagonist is reluctant, and doesn't even think the other is serious until his estranged wife is apparently murdered by a seemingly random killer.

The rocking motion of the train as it speeds along, the sound of its wheels on the rails . . . There's something special about this form of travel that makes for easy conversation, which is just what happens to the four strangers who meet in *Trains and Lovers*. As they journey by rail from Edinburgh to London, the four travelers pass the time by sharing tales of trains that have changed their lives. A young, keen-eyed Scotsman recounts how he turned a friendship with a female coworker into a romance by spotting an anachronistic train in an eighteenth-century painting. An Australian woman shares how her parents fell in love and spent their life together running a railroad siding in the remote Australian Outback. A middle-aged American patron of the arts sees two young men saying goodbye in a train station and recalls his own youthful crush on another man. And a young Englishman describes how exiting his train at the wrong station allowed him to meet an intriguing woman whom he impulsively invited to dinner—and into his life. Here is Alexander McCall Smith at his most enchanting, exploring the nature of love—and trains—in a collection of romantic, intertwined stories. This eBook edition includes a Reading Group Guide.

In unmistakable Highsmithian fashion, *Small g*, Patricia Highsmith's final novel, opens near a seedy Zurich bar with the brutal murder of Petey Ritter. Unraveling the vagaries of love, sexuality, jealousy, and death, Highsmith weaves a mystery both hilarious and astonishing, a classic fairy tale executed with a characteristic penchant for darkness. Published in paperback for the first time in America, *Small g* is at once an exorcism of Highsmith's literary demons and a revelatory capstone to a wholly remarkable career. It is a delightfully incantatory work that, in the tradition of Shakespeare's *A Midsummer Night's Dream*, shows us how bizarre and unpredictable love can be.

What does it mean to devote yourself wholly to helping others? In Strangers Drowning, Larissa MacFarquhar seeks out people living lives of extreme ethical commitment and tells their deeply intimate stories; their stubborn integrity and their compromises; their bravery and their recklessness; their joys and defeats and wrenching dilemmas. A couple adopts two children in distress. But then they think: If they can change two lives, why not four? Or ten? They adopt twenty. But how do they weigh the needs of unknown children in distress against the needs of the children they already

have? Another couple founds a leprosy colony in the wilderness in India, living in huts with no walls, knowing that their two small children may contract leprosy or be eaten by panthers. The children survive. But what if they hadn't? How would their parents' risk have been judged? A woman believes that if she spends money on herself, rather than donate it to buy life-saving medicine, then she's responsible for the deaths that result. She lives on a fraction of her income, but wonders: when is compromise self-indulgence and when is it essential? We honor such generosity and high ideals; but when we call people do-gooders there is skepticism in it, even hostility. Why do moral people make us uneasy? Between her stories, MacFarquhar threads a lively history of the literature, philosophy, social science, and self-help that have contributed to a deep suspicion of do-gooders in Western culture. Through its sympathetic and beautifully vivid storytelling, *Strangers Drowning* confronts us with fundamental questions about what it means to be human. In a world of strangers drowning in need, how much should we help, and how much can we help? Is it right to care for strangers even at the expense of those we are closest to? Moving and provocative, *Strangers Drowning* challenges us to think about what we value most, and why.

Instead, she says, with a faint smile, “Glad to be home.” Karen and Tom Krupp are happy—they’ve got a lovely home in upstate New York, they’re practically newlyweds, and they have no kids to interrupt their comfortable life together. But one day, Tom returns home to find Karen has vanished—her car’s gone and it seems she left in a rush. She even left her purse—complete with phone and ID—behind. There’s a knock on the door—the police are there to take Tom to the hospital where his wife has been admitted. She had a car accident, and lost control as she sped through the worst part of town. The accident has left Karen with a concussion and a few scrapes. Still, she’s mostly okay—except that she can’t remember what she was doing or where she was when she crashed. The cops think her memory loss is highly convenient, and they suspect she was up to no good. Karen returns home with Tom, determined to heal and move on with her life. Then she realizes something’s been moved. Something’s not quite right. Someone’s been in her house. And the police won’t stop asking questions. Because in this house, everyone’s a stranger. Everyone has something they’d rather keep hidden. Something they might even kill to keep quiet.
