The Cholesterol Delusion: Amazon.co.uk: Ernest N. Curtis M. ...

A delusion is a false belief held with conviction despite incontrovertible evidence to the contrary. In the medical field no delusion has had wider acceptance and a longer run than the belief that cholesterol levels in the blood are a major factor in the causation of atherosclerosis and its two chief complications - heart attack and stroke.

The Cholesterol Delusion - part 1 of 2 | Spacedoc.com

There are many zingers in The Cholesterol Delusion, and here are a few examples: The Cholesterol Theory is a near-perfect medical analog of the Emperor's New Clothes. When examined closely, there is nothing there. Victims of heart attacks have cholesterol levels evenly distributed throughout the range of values.

The Cholesterol Delusion - Shaw's Eco-Logic

The Cholesterol Delusion - part 2 of 2 by Ernest N. Curtis M.D. (Internal Medicine and Cardiology) Running almost concurrently with the MR.FIT study was a clinical trial that would come to be seen as the one that provided the definitive proof of the Cholesterol Theory.
